Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Party Line Pointers:

1. Space your calls instead of making a whole series.
2. If yours is an emergency call and the line is in use, explain the circumstances to the person using the line.
3. If you are calling from a dial telephone always make certain the line is clear before you dial.
4. When the children use the telephone, ask them to be considerate, too.
5. Replace the receiver properly when you finish your call.

NEWSPAPER FIREWOOD

To make a small grate or stove fire, or to kindle a big one, use old newspapers which have been rolled up tightly, soaked overnight in water, squeezed out and allowed to dry for several days. The tighter they are squeezed, the better firewood they make.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

NEWSPAPER FIREWOOD

To make a small grate or stove fire, or to kindle a big one, use old newspapers which have been rolled up tightly, soaked overnight in water, squeezed out and allowed to dry for several days. The tighter they are squeezed, the better firewood they make.

START THE HOME FIRES BURNING

To give a fire a good start, place a couple of lighted candle butts in with the kindling.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home, yet their cost is very small if they are installed during construction.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.

KEEP LIGHT FROM MILK

Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

How to make good telephone service even better . . . .

Share a party line?

These easy pointers can help you and your party line neighbor enjoy even better telephone service: When you have a series of calls to make, allow a few minutes between them • Replace the receiver properly after calling • If you have a dial telephone, make sure the line is not in use before you dial • Ask the children to be considerate, too. You'll not only be a good telephone neighbor if you do . . . but others will have a better chance to reach you!

Pacific Telephone

INSTALLED for CONVENIENCE

in MOTHER'S SEWING ROOM

With a telephone handy in her sewing room, Mother will not have to leave and dash to answer calls. Advice from friends on how to do it will also be close at hand.

and in the RECREATION ROOM

Located in your recreation room, a telephone will add to your comfort and pleasure. Close at hand during exciting moments of home games or while relaxing in moments of solitude, this telephone will stop your rushing to other rooms to answer calls.

CALL YOUR SERVICE REPRESENTATIVE AT PACIFIC TELEPHONE

Get the right number first

Get it from the directory. If there's any doubt about it, look up the number before you call. It's mighty easy to get numbers twisted if you depend on memory alone. And since looking up numbers in the directory is so easy, it's a good way to save time in making your calls.

how to use...

The Yellow Pages

in stormy weather

Your telephone plus the Classified Directory make a most efficient combination to combat stormy weather shopping problems. Many firms make a specialty of telephone orders and list such items as delivery service, personal shoppers, etc., in their Classified advertising.

for brand names

To obtain the local dealers of nationally advertised products or services, simply turn to the classified heading descriptive of the product or service, and there you will find an alphabetical list of the distributors, dealers or agents.

if you are in business

Surveys show that 9 out of 10 people use the Classified Directory. Be sure that your present and future customers can find you by listing your name under all the headings descriptive of the products you carry or services you render. It also pays to tell a complete story about your business under these headings. Display space is available in several different sizes.

Good news travels faster when you call by number

.... When you're making out-of-town calls you'll find that your calls go through faster—usually twice as fast—if you give the operator the telephone number you want rather than just the name and address. That way, you see, you won't have to wait while she calls "Information" to get the number you're calling. So why not keep a list of out-of-town numbers handy?

Jot 'em down in this free booklet

Out-of-town numbers—and frequently called local numbers—are easy to keep at your fingertips ... with the help of this handy booklet. It's yours for the asking. Just telephone, send a postcard or drop in at your nearest Pacific Telephone business office.

Pacific Telephone

For convenience in the future...

put telephone facilities

in your plans

The blue-print stage is the time to include built-in telephone conduit and outlets. During construction, the cost is trifling. Just a few pieces of pipe or other conduit material leading to convenient outlet locations will provide raceways for telephone wires. Later on telephones can be added — or moved to other locations — without drilling holes or running wire along baseboards.

For free help in planning modern, built-in telephone wiring, call your local telephone company number and ask for free "Architects and Builders Service."

FOUR *Thoughtful* ITEMS OF TELEPHONE PROCEDURE

1. Please answer promptly.
2. Please be on the line when the party you want answers.
3. Please speak distinctly and slowly, with the lips just clearing the transmitter.
4. Please replace the receiver gently when through talking.

how to use...
The Yellow Pages

as a shopping service

Shopping by telephone saves both your time and energy. Just turn to the classified heading descriptive of the product or service you desire and there you will find a convenient, alphabetical list of dealers who are equipped to fulfill your needs as courteously and efficiently as though you had visited their places of business personally.

need something in a hurry?

When you need help in a hurry the lists under each Classified Heading are ready and waiting to help. Just turn to the heading descriptive of the service or product you need and select the firm who can give you prompt and efficient assistance.

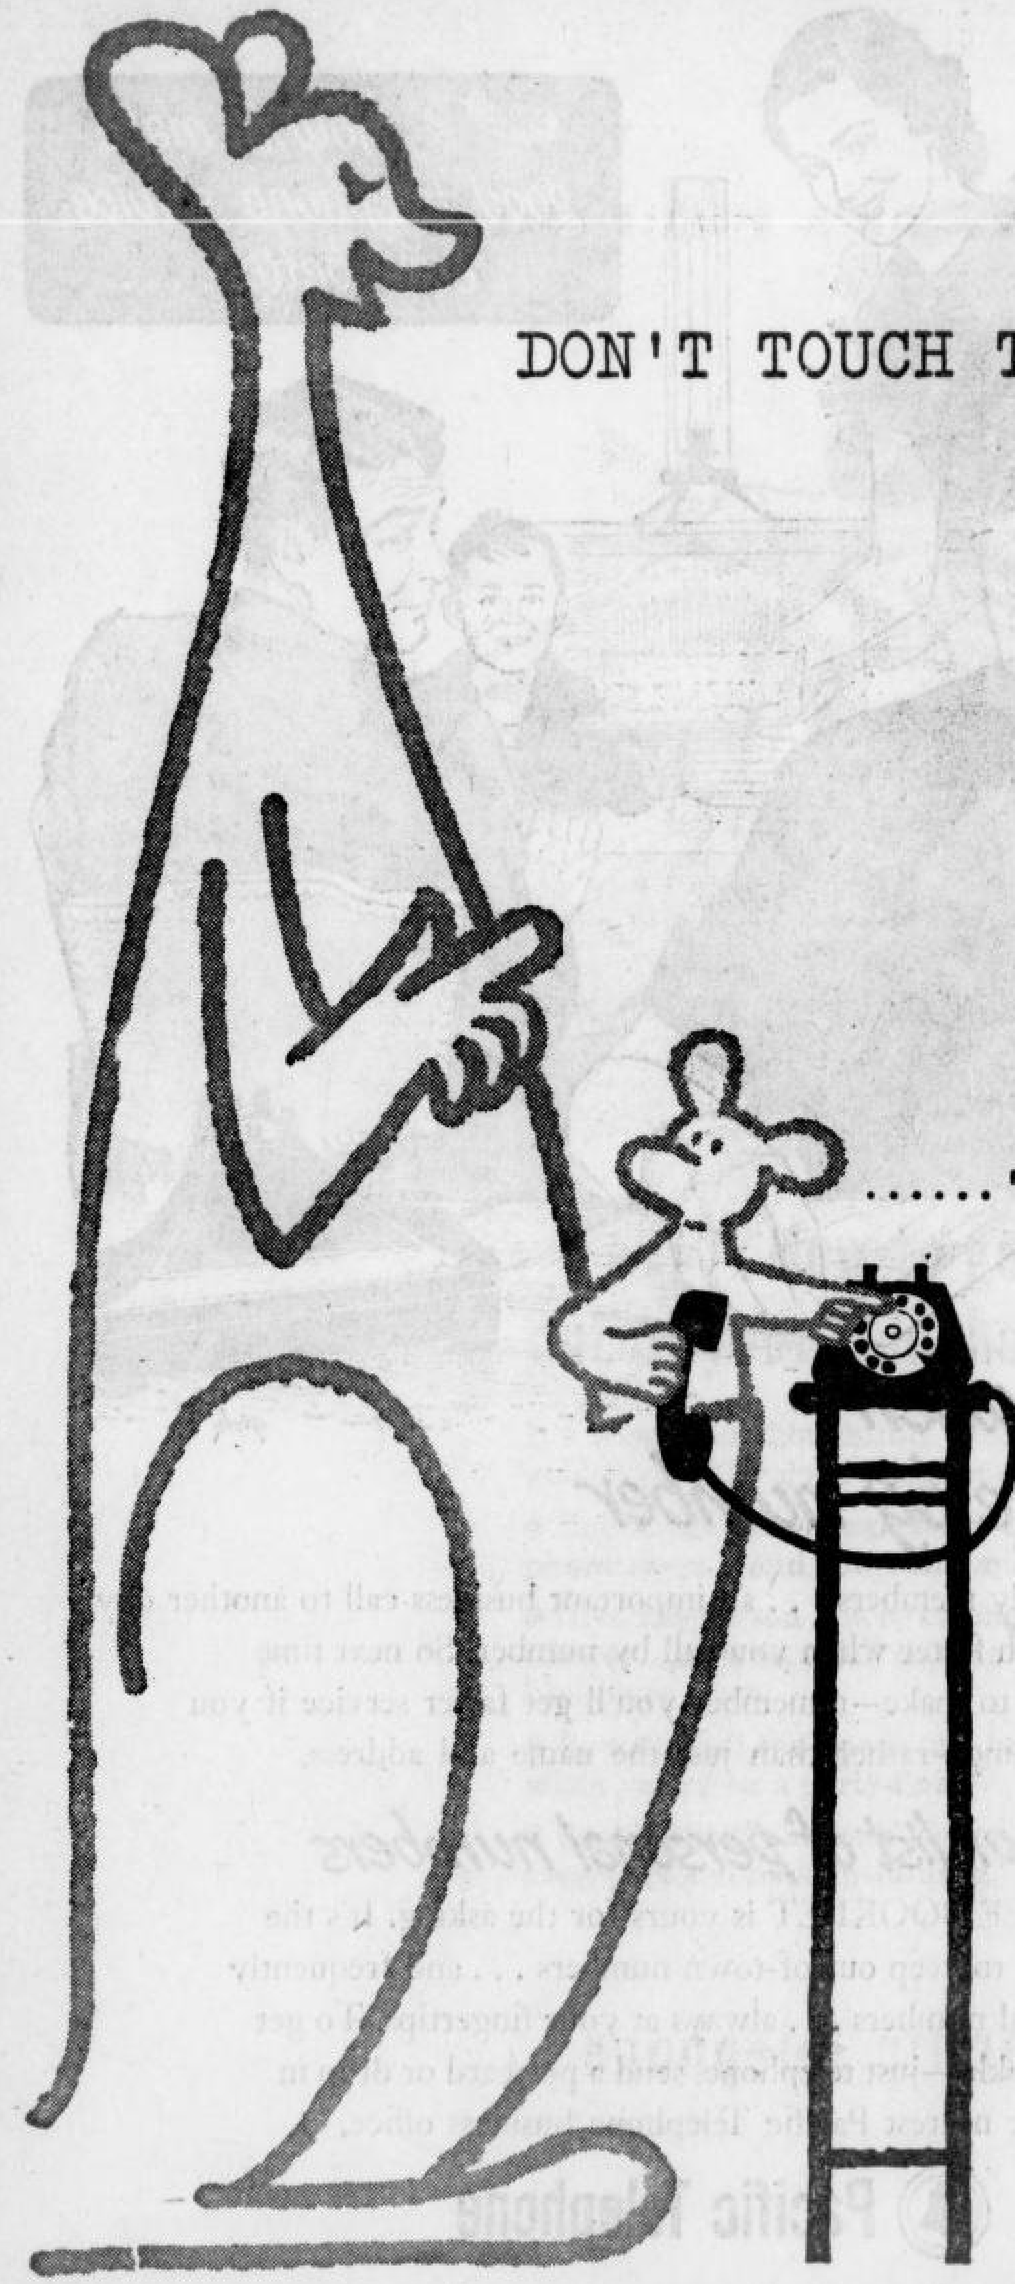
if you have forgotten...

If you can't recall the name of a particular firm but do remember the location just turn to the classified heading describing their business and check the list which will show the address you recognize. If, on the other hand, you have forgotten the address but remember the name, it is very easy to locate the firm in the comparatively small group listed under each classified heading.

Get the right number first

Get it from the directory. If there's any doubt about it, look up the number before you call. It's mighty easy to get numbers twisted if you depend on memory alone. And since looking up numbers in the directory is so easy, it's a good way to save time in making your calls.

ALL TOGETHER...ON A SINGLE CALL...



...A LONG DISTANCE CONFERENCE CALL!

A Long Distance Conference Call brings the circle of family and friends closer together... East or West, North or South, wherever they may be. You can talk to friends or relatives in as many as five different cities *at the same time.* You can give and get the latest news, make plans together, have a wonderful time!

Easy to arrange! Just give the Long Distance Operator the names, locations and phone numbers (if you have them) of the people you want to talk to; she'll do the rest. At the appointed time, all of you can talk back and forth as you would in your own living room. Why not plan to enjoy a get-together soon?

Pacific Telephone

DON'T TOUCH THAT DIAL

......'til you've read these easy steps to good service:

1. Be sure you have the right number. If you're not quite sure, check your directory first.

2. Write the number down, so you'll have it in front of you while dialing.

3. Be sure to dial the complete number ... the first two letters and the prefix numeral, then the four other numbers.

Good Service Starts with Careful Dialing

You'll save time when you call long distance by number

A special occasion call to far away family members . . . an important business call to another city . . . any long distance call goes through faster when you call by number. So next time you have an out-of-town call to make—remember you'll get faster service if you give the operator the number you're calling—rather than just the name and address.

for your list of personal numbers

This FREE BOOKLET is yours for the asking. It's the handy way to keep out-of-town numbers . . . and frequently called local numbers . . . always at your fingertips. To get your free booklet—just telephone, send a postcard or drop in at your nearest Pacific Telephone business office.

Pacific Telephone

How to get the most out of your telephone service

It's wise (and thoughtful) to follow these simple golden rules for good telephone service:

- **Encourage the youngsters to be considerate telephone users... and you won't miss important calls.**
- **Give the person you're calling plenty of time to answer... at least a full minute... and you'll reach him more often.**
- **Be sure that the line is free before making a call when you're on a party-line**
- **Look up any numbers you're not sure of and... keep personal lists up-to-date.**

There's nothing like a Long Distance call to keep you in touch

Next to being there in person, there's nothing quite so warm and satisfying as a visit across the miles by telephone. The cost is surprisingly low—especially after 6 o'clock in the evening and all day Sunday.

See how little it costs to call those who miss the sound of your voice.

Ever have your telephone ring when you were in the laundry? Imagine what it would be like to have a telephone within easy reach. No more running through the house or upstairs to catch it before it stops ringing.

Building your dream home soon?

DON'T FORGET TO PLAN AHEAD FOR CONCEALED TELEPHONE WIRING

Whether you'll want only one or a number of telephones, the time to plan for built-in concealed wire facilities is when your home is still in the blueprint stage.

For then you can be certain you won't later have to tear up part of your flooring or bring the wire in along the baseboard.

So decide in advance on convenient locations, and specify that conduit be installed during construction. This provides a metal tube through which wires may be drawn when your telephone is installed.

Our Architects' and Builders' Service will help you in every way possible at no charge.

ON THE FRONT COVER

The Hearst San Simeon State Historical Monument was opened to the public in June 1958, and dedicated as a memorial to William Randolph Hearst, who was responsible for its creation and whose hope was that the State of California receive it in the name of his mother, Phoebe Apperson Hearst. Dominating the monument is "La Casa Grande". The 16th century iron grille of the doorway comes from a convent in southern Spain. Above is an antique sculpture, "Duke of Burgundy Going Hunting" and a small niche containing a limestone "Virgin and Child" of the Gothic period. Higher still is the tile covered gable adorned with carved teak from India. The two towers, rising in the sun, hold a carillon of 48 bells.

Take life EASY

with a color telephone in every room you use a lot

You can build yourself an easy-going, relaxed way of life if you put color telephones in every room where you spend a lot of time. Extension phones take most of the run out of running a home—let you make and take calls right where you sleep, or work, or enjoy your leisure. And in color, an extension telephone is as beautiful as it's practical. Just call your Business Office Service Representative or ask any telephone service man—they'll be glad to tell you how little it costs to put color phones where you need them.

This signal is produced by recorder-connector equipment furnished by the Telephone Company. Use of a recorder on the telephone line without this equipment is prohibited by the Company's tariffs.

HOW TO CALL SOMEONE ON YOUR PARTY LINE

To find out the number of a telephone on your party line, call **Repair Service.**

From LIberty 3 telephones:

If there is a single numeral on your dial number plate opposite "PTY Code" dial that numeral after you hear this tone. When you hear a "busy" signal hang up. If there is no numeral on your number plate opposite "PTY Code" hang up as soon as you hear the high pitched tone. Your phone and the called phone will ring at regular intervals. Ringing will stop when the called telephone answers. Then lift the receiver and start conversation.

If ringing does not stop after a reasonable period, you can stop it by lifting your receiver.

From ALL OTHER DIAL telephones:

Dial a **special number** you can get from **Repair Service.** When you finish dialing, replace your receiver. Your telephone and the called telephone will ring at regular intervals. Ringing will stop when the called telephone answers. Lift your receiver and begin conversation.

To speed service Please look up The number first!

Each new issue of the Telephone Directory contains an important percentage of listings that are new or changed.

Many new telephones have been installed.

Many people have changed their places of residence or business.

PLEASE CONSULT THE DIRECTORY FIRST

How to make good telephone service even better. . . .

You'll save time if you look up numbers before you call

Have you ever had the feeling that you're *not quite sure* of a familiar telephone number you're about to call? Even the number of a friend you call quite often? Your memory tells you it's 3198. Or is it 3189? The best way to settle it is to look up numbers *before* you call. You'll save time—and avoid the delay and embarrassment of having a stranger answer if your memory tricks you into getting an incorrect number.

Pacific Telephone

LONG DISTANCE CALLS ARE FUN

Bet she just got a call from her husband who's out of town on a business trip. Or maybe someone far away has surprised her with a very thoughtful birthday present . . . a telephone visit.

Isn't it time *you* enjoyed a telephone visit with the folks back home . . . or the children who have moved away? Probably some favorite friends have birthdays or an anniversary coming up soon. Or . . . wouldn't it be fun to just "drop in" on that someone you've been thinking of—by telephone.

Long Distance calls are easy, you know. And the cost is low, as you'll see from the typical rates on the inside cover of this book.

Tonight . . . make that telephone visit. Long Distance calls are fun!

How to make good telephone service even better....

Share a party line?

These easy pointers can help you and your party line neighbor enjoy even better telephone service: When you have a series of calls to make, allow a few minutes between them • Replace the receiver properly after calling • If you have a dial telephone, make sure the line is not in use before you dial • Ask the children to be considerate, too. You'll not only be a good telephone neighbor if you do . . . but others will have a better chance to reach you!

INSTALLED for CONVENIENCE

in MOTHER'S SEWING ROOM

With a telephone handy in her sewing room, Mother will not have to leave and dash to answer calls. Advice from friends on how to do it will also be close at hand.

and in the RECREATION ROOM

Located in your recreation room, a telephone will add to your comfort and pleasure. Close at hand during exciting moments of home games or while relaxing in moments of solitude, this telephone will stop your rushing to other rooms to answer calls.

For convenience in the future...

put telephone facilities

in your plans

The blue-print stage **is the time to include built-in telephone conduit and outlets. During construction, the cost is trifling. Just a few pieces of pipe or other conduit material leading to convenient outlet locations will provide raceways for telephone wires. Later on telephones can be added — or moved to other locations — without drilling holes or running wire along baseboards.**

For free help in planning modern, built-in telephone wiring, call your local telephone company number and ask for free "Telephone Planning Service."

Party Line Pointers:
1. Space your calls instead of making a whole series.
2. If yours is an emergency call and the line is in use, explain the circumstances to the person using the line.
3. If you are calling from a dial telephone always make certain the line is clear before you dial.
4. When the children use the telephone, ask them to be considerate, too.
5. Replace the receiver properly when you finish your call.

Good party-line neighbors are considerate party-line users. Remember these golden rules:
- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver promptly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver promptly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

NEWSPAPER FIREWOOD

To make a small grate or stove fire, or to kindle a big one, use old newspapers which have been rolled up tightly, soaked overnight in water, squeezed out and allowed to dry for several days. The tighter they are squeezed, the better firewood they make.

Good party-line neighbors are considerate party-line users. Remember these golden rules:
- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver promptly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home, yet their cost is very small if they are installed during construction.

TO PAINT SCREENS

To paint a screen, or cover it with insect repellent, fasten a piece of old carpet to a block of wood. By using this implement instead of a brush, you will save lots of time and avoid lots of splattering.

TO PAINT SCREENS

To paint a screen, or cover it with insect repellent, fasten a piece of old carpet to a block of wood. By using this implement instead of a brush, you will save lots of time and avoid lots of splattering.

THIS TAKES THE CAKE

To split layer cake, or slice an angel food cake, "saw" through it with silk or nylon thread.

NEWSPAPER FIREWOOD

To make a small grate or stove fire, or to kindle a big one, use old newspapers which have been rolled up tightly, soaked overnight in water, squeezed out and allowed to dry for several days. The tighter they are squeezed, the better firewood they make.

Party Line Pointers:

1. Space your calls instead of making a whole series.
2. If yours is an emergency call and the line is in use, explain the circumstances to the person using the line.
3. If you are calling from a dial telephone always make certain the line is clear before you dial.
4. When the children use the telephone, ask them to be considerate, too.
5. Replace the receiver properly when you finish your call.

Good party-line neighbors are considerate party-line users. Remember these golden rules:
- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver promptly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

When good party-line neighbors use a dial telephone, they always remember to make sure the line is clear before they dial. And they replace the receiver properly when they're through.

Always keep Receiver
On the HOOK

When you are through talking on the telephone, always see that you place the receiver back on the hook. Otherwise you may miss an important call.

KEEP LIGHT FROM MILK

Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver promptly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

FOUR THOUGHTFUL ITEMS OF TELEPHONE PROCEDURE

1. Please answer promptly.
2. Please be on the line when the party you want answers.
3. Please speak distinctly and without hurrying, with the lips close to the mouthpiece.
4. Please replace the receiver gently when through talking.

When in doubt about a telephone number, please look in the telephone directory first. That helps you, helps others, and helps telephone people to do a better job for you.

Please
DIAL CAREFULLY
Careless dialing puts other people to needless bother—and delays your call. Please make sure of the right number, *listen for the dial tone,* then dial carefully.

As one friend TO ANOTHER

Please speak distinctly, when you telephone, with lips close to the mouthpiece. It is just as important to talk directly into the transmitter as it is to keep your ear close to the receiver.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver promptly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Please
DIAL CAREFULLY

Careless dialing puts other people to needless bother—and delays your call. Please make sure of the right number, *listen for the dial tone*, then dial carefully.

TO REPAIR LINOLEUM

If you have a break in the edge of linoleum, take a good-sized piece of cloth (to reach well beyond the break at all points), cover it with glue and put it beneath the linoleum. Weight it down with heavy objects until it has had time to dry and set.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver promptly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Good party-line neighbors are considerate party-line users. Remember these golden rules:
- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver promptly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home, yet their cost is very small if they are installed during construction.

In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

TO PAINT SCREENS

To paint a screen, or cover it with insect repellent, fasten a piece of old carpet to a block of wood. By using this implement instead of a brush, you will save lots of time and avoid lots of splattering.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver promptly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Party Line Pointers:

1. Space your calls instead of making a whole series.
2. If yours is an emergency call and the line is in use, explain the circumstances to the person using the line.
3. If you are calling from a dial telephone always make certain the line is clear before you dial.
